

## C# Backend Developer

Apollo is an Enterprise Imaging company that provides clinicians and healthcare organizations with the tools and solutions they need to be effective and efficient in delivering quality patient care. At Apollo Enterprise Imaging Corp, our ability to drive clinical multimedia innovation is based on our senior management team's vision combined with a development team that is focused on delivering quality solutions with a "client first" approach. Our environment is fast-paced, challenging, and exciting; along with respect for work-life balance. You'll work with a team of passionate, engaged individuals. We offer a competitive compensation and benefits package.

We are looking for a talented, professional, and hard-working individual to serve as a software developer, focusing on Apollo's backend and related initiatives, to join the development team to work in a fully ISO compliant and Agile development environment.

### **SUMMARY OF DUTIES AND RESPONSIBILITIES:**

- Design, build, and support development areas related to Apollo's backend applications and services.
- Define integration points with third party systems and design interfaces.
- Participate in the full systems development life cycle with solution design, development, implementation, and product support using agile methodologies.
- Develop, test, debug and document software for Apollo's healthcare applications
- Assist in defining the goals of the system and dividing the solutions into individual steps and separate procedures
- Use various software to program, encode, test and debug the system to ensure that it performs as planned and install the system on operating platforms
- Prepare system end user documentation and conduct user acceptance testing
- Maintain source-code repository, and participate in deployment of code into production
- Work in a fully ISO compliant Agile development environment, following Apollo's Quality Procedures
- Perform other duties as assigned

### **REQUIREMENTS:**

- BS/BA or greater in Computer Science, Mathematics, Software Engineering, Computer Engineering, or a related field
- 3+ years of experience developing Web APIs or Windows Services in C#.
- 3+ years of experience working with MS SQL Server building tables, views, and stored procedures
- Some experience building RESTful APIs using JSON and/or XML
- Must be a self-starter, with the ability to work independently and with minimal supervision.
- Ability to resolve problems, think analytically and communicate professionally in high pressure, time sensitive environments.
- Ability to manage time efficiently to update and resolve assigned tasks in a timely manner

### **DESIRED SKILLS (NOT REQUIRED):**

- Familiarity / experience with DICOM is a PLUS

- Familiarity with IIS
- Experience in developing Windows desktop applications using WinForms or WPF
- Familiarity with VB.Net
- Familiarity with LEAD Technology Toolkit
- GitHub experience
- Healthcare IT experience is a PLUS
- Solid interpersonal and communications skills and experience working in a team environment preferred

**LOCATION:** Fort Collins, CO

Job Type: Full-time/contract to Fulltime

Travel: 0-5%

Pay: compensation commensurate with experience

Apollo will only employ those who are legally authorized to work in the United States without visa sponsorship, US citizenship preferred, for this opening. Any offer of employment is conditioned upon the successful completion of a background investigation and drug screen.

Apollo is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, age, disability, protected veteran status or other characteristics protected by law. The Company also makes reasonable accommodations to applicants or employees with qualifying disabilities who request them and who otherwise meet the requirements of applicable law.

Apollo is not accepting unsolicited assistance from search firms for this employment opportunity. All resumes submitted by search firms to any employee at Apollo via-email, the Internet or in any form and/or method without a valid written search agreement in place for this position will be deemed the sole property of Apollo. No fee will be paid in the event the candidate is hired by Apollo as a result of the referral or through other means.
